FLUID CONTROL SYSTEMS

Bürkert Water Treatment

Reliability for fluid control

Customized System Solutions

Bürkert is your partner in Water Treatment Control systems, with dedicated Bürkert offices and/or manufacturing facilities in more than 35 countries. 60 years' experience in automated fluid processes and Bürkert still delivers fluid control solutions that integrate intelligence into valve and sensor systems.

We speak your language in reverse osmosis, odor scrubbing, fertilizer dosing, PCB production, cooling tower water, swimming pool, power plant water analysis, pure and ultra-pure water production and chemical dosing solutions.

Bürkert offers a wide range of control capabilities and «smart» devices, including built-in proportional controllers, ASi and Fieldbus connections, internal and external set points, and analog outputs. Bürkert manufactures the most reliable and innovative solenoid valves, process valves, pneumatic actuation systems, sensors, controllers and fluid control systems. In addition, Bürkert provides custom fluid control solutions in a wide range of markets including:

- Water Treatment
- Food
- Beverage
- Pharmaceutical
- Medical Equipment
- Biotechnology
- Textile
- Semiconductor
- General Industrial Processing

Flow Control

A full range of flow devices to include paddle wheel meters, insertion and full bore magnetic meters.

8055/8045/8030 left to right

Temperature Control

Technologies ranging from standard OEM RTD sensors to transmitters with digital output for alarm or temperature control.

ST21/8400 left to right

Pressure Control

Industrial and OEM pressure devices providing both analog and/or digital outputs.

8323 or 8314/8311 left to right

Panel & Wall Mount

Panel and Wall solutions for analytical, flow, or level control systems.

Level Control

A wide range in level instrumentation including hydrostatic, ultrasonic, radar and point level devices.

8111/8176/8136 left to right

Analytical Control

Providing the industrial water treatment market with pH, conductivity, and ORP transmitters, controllers, and OEM sensors.

8205/8206/8225 left to right

Solenoid Valves

Complete range of standard OEM and industrial water solenoid valves in brass, stainless steel and plastic.

6223/142/5282 left to right

Process Valves

Process valves for either ON/OFF or continuous control in brass, stainless steel and plastic.
