FLUID CONTROL SYSTEMS

System Solutions

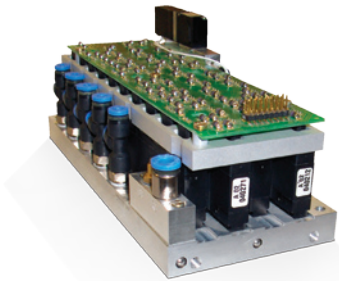

Partner, Understand, Provide

At Bürkert, our aim is to satisfy most challenging customer needs quickly and reliably. We do this globally with innovative high-quality products, complete system solutions and comprehensive services; all at competitive prices.

Bürkert products and systems can be used wherever fluid media and gases need to be measured, controlled and regulated. Whether the application is filling, level, flow, pressure or temperature we have a solution and a uniquely comprehensive range of products to handle it, including solenoid, process and analytical valves, pneumatic actuation, sensors and controllers.

Bürkert is present in over thirty countries around the world. We also work with a large network of distributors and partners, which means we can be as close as possible to our customers. With this global presence we can assure all of our customers in every country around the world our full service and support. We are committed to offering our expertise wherever it is needed, anywhere in the world. Our global presence ensures that Bürkert advances in fluid control technology are also global.

Our new Charlotte North Carolina facility is a Bürkert System Haus. Our ability to creatively engineer cost effective solutions to difficult process challenges make us a valued partner to our customers. We go the full mile. We work with your engineers in the design phase, and are able to produce engineering, quality, and commercial documentation in just about any format. We aim to satisfy not only the product part of a project, but every aspect for a complete solution. As an ISO 9001 certified company, we pay careful attention to the details, all of them. Our production and assembly procedures are documented and can be reviewed by your engineering and quality team at any time.

Partnering from concept, through validation to manufacturing

Understanding the needs of our customers

Providing in-house testing services

solutions

Solution Provider Services

- Engineering Design and Technical Expertise
- Kanban-JIT Inventory Services
- Single Source for Pneumatic and Liquid Valves, Pumps and Sensors
- Customer-Burkert Website/Portal
- Value Added/Pre-tested Assemblies
- Clean Room Assembly and Testing Available
- Bagged, Tagged, Kitted, Custom Part Numbers

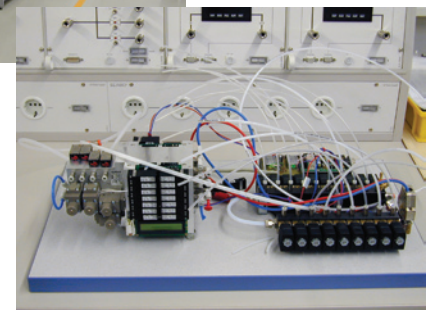

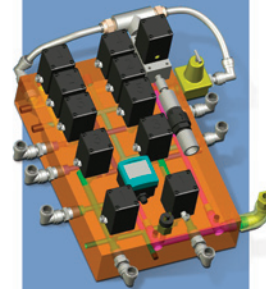

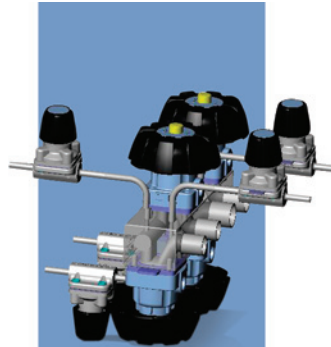

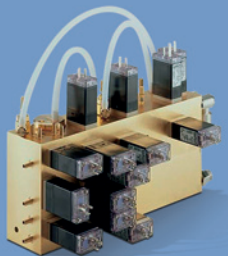

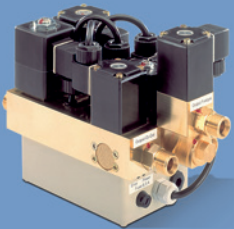

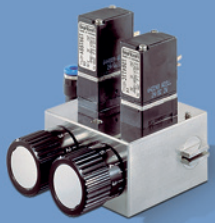

Advantages of a Burkert Partnership

- West Coast facility in Irvine, California
- New East Coast facility in Charlotte, NC- Systems Haus
- The latest information Web-site (www.burkert-usa.com)
- Interactive PDF Data Sheets with Complete Drawings
- Compatibility Charts
- Complete Technical Specifications
- Service Intensive Team
- Expedient Quoting Services
- Expedient Samples to the customer for testing
- Rapid Prototyping
- Consulting / Engineering Expertise
- Local Area Sales Manager
- Custom Solutions Engineering Team

Wherever fluid media or gases flow that need to be measured, controlled and regulated in automated processes, Burkert solutions can be used.

Examples of our industries include:

- Automotive
- Biotechnology
- Chemicals
- Food & Beverage
- Genetic
- Engineering
- Machinery
- Medical & Analytical
- Pharma & Cosmetics
- Power Generation
- Semiconductor
- Textiles
- Water Treatment
